Other Needed Items (Not included in kit)

Dispensing Gun	Drop Cloth	Safety Glasses	Safety Gloves
			

Instructions

	Infinity Bond is highly flammable. Only use in well-ventilated areas. Always wear protective gloves and safety glasses when handling.
---	---

- 1.) Use drop cloth to cover any area of the spa or surroundings that will be exposed during the repair. The Infinity Bond may cause permanent damage to surfaces it contacts. Be sure to mask off any plumbing lines and compression fittings before starting the repair.
- 2.) Normal working time for the Infinity Bond is 3-6 minutes at 75 degrees Fahrenheit. Fixture time is 10-15 minutes at 75 degrees Fahrenheit. Operating temperature should be between 65 and 85 degrees Fahrenheit.
- 3.) Assemble the Infinity Bond applicator and place assembly into the dispensing gun (sold separately).
- 4.) The Infinity Bond should be allowed to set for 10-15 minutes.
- 5.) See Infinity Bond MMA 300 Technical Data Sheet for more information.
